

Rafael and Tracy, Evelyn, Emily, Rafael, Elisabeth *Rodriguez*

Greetings from Panamá!

We are doing well. To those who have prayed for Evelyn's knee. Thank you. She completed all of the physical therapy sessions and the doctor said that she did not need surgery. We thank the Lord for her healing.

We have always rented a house across the street to be used for Sunday School classes. We are no longer renting the house and we have started building classrooms onto our church building. Right now, we are in the process of building three additional classrooms. We are excited to be able to use these rooms. We do not have the money; we are just trusting in God as He provides.

A couple of weeks ago, we started a project to knock every door in the district of Dolega. Our door-to-door evangelization has been limited for at least the last three years due to covid restrictions here in Panama. Now that almost all restrictions have been lifted, we have started from one end of the district of Dolega and are working our way across to the other end. Please pray for the Holy Spirit's conviction and for God to work in hearts. Just last week a lady contacted me. Someone had visited her a few weeks ago. She wants to come to church on Sunday. Praise the Lord!

Last Sunday we rejoiced with five young people in their decision to follow Christ in baptism.

Please pray for us as we continue to teach in Bible institutes/ seminary of two different local churches. We are excited to see young people with a desire to study and learn more of God's Word. Our prayer is for God to use the next generations coming up!

*Rafael Rodriguez*

Your servants,  
Rafael, Tracy and Family
